H. PROGRAMMING

A synchronous (live) program session is any planned event which introduces the group attending to library services or which provides information to participants.

Program sessions: Program sessions may cover use of the library, library services, or library tours. Program sessions may also provide cultural, recreational, or educational information. Examples of these types of program sessions include, but are not limited to, film showings, lectures, story hours, literacy programs, citizenship classes, and book discussions.

Include:

- All program sessions that are sponsored or co-sponsored by the library. For a program session to be sponsored or co-sponsored by the library, the library must contribute financial resources or staff time toward the program session. For a program session that is part of a larger community event (such as a farmer's market or festival), it is not necessary for the library to also sponsor or organize the larger event.
- Both on-site and off-site program sessions. For example, include a storytime at a farmer's market or a presentation to a school group about library resources conducted at a school. Live-streamed virtual (synchronous) program sessions that are sponsored or co-sponsored by the library.
- Program sessions with attendance of zero or one if they were intended for a group.

Exclude:

- Program sessions sponsored by other groups that use library facilities. For example, do not include a homeschooling group hosting a speaker in a meeting room without facilitation from library staff.
- Offsite outreach efforts that do not otherwise meet the definition of a program session. For example, do not include having a library card signup booth at a farmer's market.
- Recorded (asynchronous) presentations of program content; these should be counted in Total Number of Asynchronous Program Presentation.
- Programming that is shared on the library's website or social media that is not sponsored or co-sponsored by the library. For example, do not include sharing a video from an author's website of him or her reading a book.
- Activities delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.
- Passive or self-directed activities that do not occur at a scheduled time. For example, do not include leaving an art project or puzzle on a table for participants to complete. Report these items in the "Self-Directed or Passive Learning Activities" section.

Program attendance: Include all attendees regardless of age (e.g., count all adult attendees of children's programs in children's program attendance).

H-49 Total Number of Recorded Program Presentations	0
H-50 Total Views of Recorded Program Presentations within 30 Days	0

Self-Directed or Passive Learning Activities

These activities do not meet the federal definition of a program and should not be included in the previous programming section.

A self-directed activity is a planned, independent activity available for a definite time period which introduces individuals participating to any of the broad range of library services or activities which directly provide information to participants. Activities may cover use of the library, library services, or library tours. Activities may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Activities differ from programs in that activities are unstructured and depend on the participation of the individual to create the experience independently, rather than a structured program offered to a group at a set time.

Examples of self-directed activities include DIY stations, Take and Make kits and crafts or other grab and go activities, self-guided Story Walk, contest and scavenger hunts, social media challenges, virtual escape rooms, and 1,000 Books Before Kindergarten.

Count all activities, whether held onsite, offsite, or virtually, that are sponsored or co-sponsored by the library. Exclude activities sponsored by other groups that use library facilities.

Note: Exclude library activities that are delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.
