

## Ford City Public Library 2026 Summer Reading Program

# SNACK N STEM

*Fridays @ 1PM for Ages 6+*

## **6/12** MICROSCOPY

Use microscopes (made of paper!) to explore plants & insects up close and discover what paleontologists learn about dinosaurs on a microscopic level!

---

## **6/19** IDENTIFYING FOSSILS

Uncover fossils - then learn how to tell what's what!

---

## **6/26** CAVES & SINKHOLES

Take a step underground! Explore the different types of caves then build your own model to learn how caves are formed.

---

## **7/10** DINOSAUR SKELETONS

Ever see a dinosaur skeleton at the museum and wonder how they piece them together? Learn all about it then build your own dino skeleton puzzle!

---

## **7/17** ARCHEOLOGY VS. PALEONTOLOGY

Often used interchangeably, learn the huge differences between archeology and paleontology before embarking on your own archaeological excavation!

Registration required, space limited.
